- **Sutra Mukteswar Vidyaniketan** Sutra, Burdwan, India
Secondary | **Percentage: 85.42** Jan 2012 – June 2018

Technical Skills

- **Programming Languages:** Java, JavaScript
- **Frontend Technology :** React, HTML , CSS
- **Frameworks :** Tailwind, Bootstrap
- **Database:** MySQL

Projects

- **All News (News WebApp)**

React, Bootstrap, News API , JavaScript, HTML, CSS

- Developed a responsive **news aggregator web application** that allows users to view news articles from various categories such as Entertainment, Sports, Business, etc.
- Managed state and handled asynchronous data fetching using **React Hooks** (e.g., **useState**, **useEffect**).
- Integrated **News API** to fetch real-time news data across multiple categories.
- Designed a responsive UI with **Bootstrap** components, ensuring **cross-device compatibility**.
- Live Preview : <https://news-app13.netlify.app/>

- **Advance Note App**

React, Redux, Tailwind, HTML, CSS, JavaScript, localStorage

- Created a **note-taking app** that enables users to **create, view, edit, share** and **delete** notes.
- Implemented **state management** using **Redux** for seamless note operations and interaction.
- Used **localStorage** to persist notes and ensure users' data remains available across sessions.
- Delivered a **smooth user experience** with real-time toast notifications using **React Hot Toast**.
